The Illegal Sale of Real Estate. We cannot call to mind an act of the Seymour administration that has given such universal satisfaction as the introduction of the bill to redeem the real estate illegally seized and sold for taxes by Governor Kennedy. On the Island there is scarcely a dissentient voice, and we are sure that the proposal will meet with general approbation on the mainland. In this young Colony there is nothing of more importance than to preserve unclouded the titles to real estate. In other States on the coast squatter riots, originating in defective titles, have been of frequent and bloody occurrence; and the confusion of titles has given rise to endless litigations. It is not desirable that the British Colonies on the Pacific should furnish ground for a repetition of scenes of a like character. As the law was interpreted-or, rather, applied-by Governor Kennedy, no man's real estate was safe from seizure

out that punishment to evil-doers which the law prescribes, but which its officers are too weak or inefficient and sale. A man might pay his taxes over and over again and produce Treasury receipts to prove that he had done so; yet if the colonial books furs nished no evidence of the fact, his property went under the hammer, and the excuse for the perpetration of this monstrous piece of injustice was based upon a clause in the Real Estate Tax Act which says that " notwithstanding any informatity or irregularity the sale shall be valid." Was a greater piece of tyranny ever heard of? The unfortunate owner of a lot might faithfully discharge all his liabilities to the Government, but if the officer to whom he paid his taxes proved to be a thief, he could not save his home from a forced sale except by paying his taxes over again. We are aware, however, that some lots were disposed of for a trifle the owners of which had wiltally neglected their duty towards the Government; but even the rights of this class were invaded and the the value of real estate. It is to atone for the illegality of these sales that the Redemption Bill has been brought forward. As a matter of law, the bill is unnecessary. The title of the owners who were dispossessed of their in law is well known: A. steals a horse duties, as every article was now considerably from B. and sells it to C.; the latter bigher than when the mill was started. The in law is well known: A. steals a horse must deliver up the horre to A. upon proof of ownership, and B. may be upon be dependent on the case. How DeCosmos—Assuming all that had the facts of the case, they punished for his crime. In the case | Hon DeCosmos—Assuming all that had been stated to be the facts of the case, they under consideration, the Government, through the Sheriff, is liable to be sued by the purchasers for having sold them property it had no legal right to sell; but the owner of the real estate can hold on the his property at all forms and the mill. The amount of labor employed would fully sepay Government for the sacrican hold on to his property at all hazards. By the passage of the bill no injustice will be done. The purchasers will receive the principal and nearly two years' interest at the rate of 21 per cent. per annum, and Government will be enabled to extricate

itself from a very ugly scrape.

Protection for Live Stock. Mr Maxwell, from Salt Spring Island, relates a doleful tale of the state of affairs there. Five years ago he placed on his farm one hundred and fifty head of cattle. Since then he has sold only fourteen head, and today he counts only the original numher that he imported-the increase having been systematically slaughtered by Indian and white cattle thieves Mr Greavy, of Plumper's Pass, told a similar story in the Police Court the other day. All the settlers on the Island have suffered in a greater or less none. Mr Maxwell says that within the month he has discovered the remains of five of his finest beeves, and that small stock are shot without number and their carcases carried away for sale or consumption. Is there no remedy for this great evil? We may legislate to prevent the importation of live stock, but how are our farmers to supply the local demand if this illicit slaughter of their herds is to continue? At present, law is a mockery on the East Coast, Farmers who have invested their means in live

These men paid Government for the lands on which they have located, and should and must be protected from the depredations of villains who are, drawing, as it were, the very life's blood from the agricultural dies tricts. The "strong arm of the Government" must make itself felt soon, or there will be terrible work on the East Coast. The settlers have been patient and forbearing for many years; but they cannot submit longer to have their farms invaded and their property wantonly destroyed or carried off to support a pack of fellows too lazy to work. We are admirers of law and order; but there are times when even the most law-abiding citizen may be excused if he takes matters into his own hands and metes

LEGISLATIVE COUNCIL PROCEEDINGS.

[Specially Reported for the British Colonist.]

Friday's Sitting.

FRIDAY, March 22.

The Council met at 3 p.m. Present:— Hons Walkem, Southgate, Franklyn, Sanders, Helmeken, Brew, Maedonald, Breh (presid-ing), Crease, Robson, Stamp, DeCosmos, Hamley, Wood, Barnard, Pemberton, Trusch, Ball, O'Reilly.

Hon Helmcken placed a protest on record

signed by himself and five or six others against the insertion of Clause 5 in Harbor Dues Bill, giving power to the Governor to grant licences to foreign vessels in the coast-Message No. 34, from His Excellency the

Governor, was read, informing the House that he bad placed himself in communica-tion with the Governor General of Canada, the Colonial Secretary, and Sir Edmund Head on the subject of Confederation. Hon DeCosmos moved for any further in-structions which may have passed between the Imperial G vernment and the Colony on

the subject of the Crown Lands.

Hon Helmcken moved that a drawback be

paid on all malt liquors manufactured in the Colony and exported therefrom. READ A FIRST TIME.

The Harewood Coal Company Extension

The Excise Ordinance, 1867. ORDERS OF THE DAY.

Hon Stamp, in resuming the consideration that the cholera prevails his motion relative to Sawmills, would that section this winter. call the attention of the House to the fect that it was not the mill that he was connected with only that he advocated in his of this class were invaded and the motion, but all the lumber mills in the colony. He held in his hand the figures necessary to the Government to enforce the sale of their great and chattals before laying them in relation to the working of savmills, their goods and chattels before laying hands upon their realty. Real estate is always considered the safest investment for money—it can neither becarried away nor burned up. But the illegal act of Governor Kennedy in illegal act of Governor Kennedy in selling the property created a feeling of insecurity among owners and mortagagees that has proved highly injurious and has tended to depreciate the value of real estate. It is to atone portation of goods, it would be the best eculation Government could enter into He denied that a sawmill could make money

and pay the duties.

Hon Robson had no personal interest in the matter, yet he felt how important the subject was and would test the patience of property was not weakened by the sale, because the seizure was illegally made; but the purchasers—although they cannot hold the land—have a grievance against the Government that must be redressed. This principle that must be redressed. This principle trade, but doubly so with the present heavy.

Hon Helmcken—The amount of duties had been calculated at from 65c to 70c per 1000 feet. Would it not be well, by supporting the lumber trade, to see if we could not turn the fur trees about here to account? Hon Walkem supported the hon mover of the resolution. If the mill was enabled to go on there would be \$150,000 per annum spent

in the colony.

Hon Trutch thought the idea of allowing a drawback in proportion to duties paid quite impracticable, but he would vote for a draw-back of 50 cents per M feet of lumber ex-ported. He was frightened by the dreadful pictures drawn by hon members, and would vote for the 50 cents drawback in order that the lumber trade might be continued in the

colony. Hon Helmcken's amendment to grant a drawback of 50 cents per M feet was then carried.

The Legal Professions' bill was considered

THE VOLUNTEER BENEFIT at the theatre last night was equal to any of the former efforts of our amateurs, who, under the competent management and direction of Mr Marsh, are acquiring a histrionic reputation that will compare favorably with the best company of professionals that has yet catered for the public amusement on these boards. An evening with the Dramatic Club is now looked forward to as one of the events of the day; they not only furnish a vast amount of entertainment, but spare no pains in rendering their performances as successful and agreeable as possible to their patrons; and lucky is the Institution that can ensure their valuable aid in these hard times. The attend ance last night was one of the largest and most intelligent that has yet been crowded within the walls of the theatre, more reserved seats having been secured for this than for any previous benefit; and we think we can safely say that every individual constituting that large assemblage went away not only pleased but delighted with the whole of last night's programme. His Honor Chiel Justice Needham, Capt. Oldfield and Officers of the Fleet, and Capt. Pearse, V. V. R. C., the patrons of the evening, were pre-ent, and the percentage of ladies who graced the house with their presence was unusually large. Of the orchestral department we shall have occasion to speak to-morrow. The rifle corps fund, we shall be happy to hear, has been handsomely augmented by the pro ceeds of this splendid benefit.

AID FOR A REAL CHARITY, -!t is proposed to hold, on Easter Monday evening, (22d April,) a Soiree and Collation at the St. Nicholas Hall in aid of the orphans of St. Ann's Convent. There are thirty-two little ones of all denominations at this institution whose wants are attented to by the Sisters without fee or reward-the labor being purely one of Christian charity-and many friends who wish to manifest their sympathy for the praiseworthy efforts of the Sisters have projected this entertainment. We know, from personal observation, that the charity is a real one, and we therefore conscientiously recommend each our readers to contribu'e at least the price of one ticket towards the support of so worthy an object.

TRAGEDY .- A shouting affair occurred a Knight's Ferry, California, February 15. George T. Chesbire, a schoolteacher, was as sailed by a Mr McGuiness, whose daughter the former had turned out of his school. In the wrangle, Cheshire shot four balls into McGuiness, killing him instantly. Soon after, a son of McGuiness shot Cheshire through the head, the ball penetrating the brain and lodging in the skull. At last accounts. Cheshire was alive, but with barely a chance of recovery.

DISCHARGED .- The young man from Portland, who was taken into custody upon a charge of defrauding his employers, was yesterday discharged by the Police Magistrate, and "left the Court without a stain on his character." It appears that the telegram requesting that he be held until the arrival of the Fideliter, was based upon a misapprehension. Upon the arrival here of one of the Portland firm, an examination of his accounts was held, and everything found to be in the highest sense satisfactory.

STEAM COLLIERS-The Nanaimo Gazette says: Mr Weild, lately from England, arrived by the Sir James Douglas on Tuesday last. We have been told that his business here is to make arrangements for a line of steam colliers to ply between this port and San Francisco; it is expected the arrangements will shortly be completed and the seels running before the fall

A DESPATCH from San Francisco announces the sudden death of Mr. Walter Minturn agent-for the Colorado line of steamships. The flags of the shipping and on the Amercan Consulate, were placed at half-mast in consequenc. Deceased was a young man of great promise, and his numerous friends here are filled with grief on the announcement of his demise.

1CE FROM NEW WESTMINSTER DISTRICT .-Capt. Hewitt, of the schooner Nanaimo Packet, returned from Langley, Fraser river, with a cargo of twenty-five tons of ice for A Phillips. The blocks average two feet in thickness, and furnish unimpeachable evidence (f the severity of the weather in the vicinity of the capital.

FALL OF TREASURE.—The bottom of one On Tuesday, April 9, of Wells, Fargo & Co.'s waggons gave way in San Francisco, on the night of the 18th inst., and \$15,000 in gold dust and bars were deposited in the mud instead of in the bank vaults. The treasure was carefully guarded

and conveyed to the office in two waggons: WATERFALLS .- A little girl in one of the

Gloucester (Mass.), public schools, being asked in the course of her geography lesson what a waterfall was, replied that it was " hair wrapped around her dad's old stock-

OVER THE Sound .- The Pixley family are preparing for a professional trip over the Sound. Wherever the troupe has performed and \$8,000 to build, is two stories high, two its talented members have made themselves great favorites, and the public will part with

them with regret.

Dr Tolmie has so far improved in health as to be able to drive to town, and that there is now every prospect of his complete and

B E D Card from Hon. J. D. Pemberton.

NEW WESTMINSTER, 22d March, 1867. EDITORS COLONIST-In your paper of the Editors Colonist—In your paper of the 21st inst., I am reported to have said in connection with the motion for a remission of certain duties in favor of lumber mills: "Thought \$1 per M on lumber manufactured not unreasonable * * should recommend \$1.50 instead of \$1." What I intended to say would read: "Thought a drawback should be allowed on lumber exported, not exceeding \$1 per M., believing that lumber can be produced at the Sound cheaper by \$1.50 per M., than in this Colony."

I may perhaps be allowed to add that I am confident this condition of matters will be reversed as soon as the capital invested

be reversed as soon as the capital invested in the lumber trade is equal to that invested in the business on the Sound, and that the policy indicated by the resolution of the Council to-day, if persevered in, will tend, rapidly to promote the desired end, and will divert no inconsiderable number of the fleet of lumber vessels, which hitherto have passed us by, to these shores.

Ayer's Sarsaparilla, A compound remedy, in which we have labored to produce the most effectual alterative that cent be made. It is a concentrated extract of Pair Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afficient fellowitizens. How completely this compound will do it has been proyen by experiment on many of the worst cases to be found of the following complaints:

complaints:

Scrofula and Scrofulous Complaints,
Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt
Rifley, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease,
Eriofsy, Neuralgia on Tic Douloureaux,
Debility, Dyspersia and Indicestion,
Erystpelas, Rose, on St. Anthony's Fire,
and indeed the whole class of complaints grising
from Impurity of the Blood.

This compound will be found a great pro-

and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the sid of this remedy, spare themselves from the endurance of foul cruptions and theerous sores; through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural chainels of the body by an alterative medicine. Cleanse out the vitated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the voins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no fasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the repu-

is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be con-centrated extracts of it, contain but little of the

cause many preparations, pretending to be concentrated extracts of it, contain but little of the
virtue of Sarsaparilla, or any thing else.

During late years the public have been misled
by large bottles, pretending to give a quart of
Extract of Sarsaparilla for one dollar. Meet of
these have been frauds upon the sick, for they
not only contain little, if any, Sarsaparilla, but
often no curative properties whatever. Hence,
bitter and painful disappoiatment has followed
the use of the various extracts of Sarsaparilla
which flood the market, until the name itself is
justly despised, and has become synonymous
with imposition and cheat. Still we call this
compound Sarsaparilla, and intend to supply
such a remedy as shall rescue the name from the
load of obloquy with rests upon it. And we
think we have ground for believing it has virtues which are irresistible by the ordinary run of
the diseases it is intended to cure. In order to
secure their complete cradication from the system, the remedy should be judiciously taken according to directions on the bottle. PREPARED BY

DR. J. C. AYER & CO., LOWELL, MASS. Price, 81 per Bottle; Six Bottles ft. 35
